EDUCATION

Ph.D.	Economics, University College London	2024 (Exp)
Exchange Scholar	Economics, Yale University	2021 – 22
M.Res.	Economics, University College London	2016 – 17
M.Sc.	Economics, Sciences Po, Paris	2014 – 16
B.A. (Hons)	Economics, St. Stephens College, New Delhi	2011 – 14

RESEARCH INTERESTS

Primary: Development Economics
Secondary: Spatial Economics, Economics of Education, Economics of Gender

RESEARCH

WORKING PAPERS

"Structure, Regulation and Power: Case of Indian Agricultural Market" (job market paper)
Abstract: In this paper, I study the role regulations and market structure play in explaining price dispersion in the agriculture market. The structure and geographical placement of the markets in India, create space for traders to exercise market power thereby affecting the realized crop prices. Market power in agriculture is not new and while there has been extensive research on the same, understanding the interplay between spatial concentration, within market competition and government regulation remains an unexplored territory. My results show that both the channels of competition, between and within market, lead to increase in farm-gate prices. I exploit a major policy reform in India, which integrates many of these crop markets, to examine how increasing competition among traders, through integration, affects prices.

CONFERENCES AND SEMINARS

Stockholm School of Economics, ENTER (forthcoming)	2023
Yale IO Reading Group, Yale Development Reading Group, UCL PhD Seminar, RISE Conference (Oxford), ENTER Jamboree (Barcelona), University of Naples	2022
IFS Work-in-Progress Seminar, UCL PhD Seminar	2019

RESEARCH EXPERIENCE

Research Officer	Institute for Fiscal Studies, London	2022 – 24
Researcher	Institute for Fiscal Studies, London	2018 – 22
Research Assistant for Orazio Attanasio	University College London	2018 – 19
Research Assistant for Parama Chaudhury	University College London	2017
Research Assistant for Johannes Boehm	Sciences Po	2016
Policy Intern	J- PAL South Asia, New Delhi	2015

TEACHING

University College London, London

Economic History	2021 – 22
Quantitative Economics and Econometrics	2017 – 21
Economics of Development	2017 – 18

Sciences Po, Paris

Econometrics and Macroeconomics for Masters in Economics	2015 – 16

PRIMARY DATA COLLECTION

Vietnam Rise Survey Data

Baseline and follow-up data on 10,000 primary school students, their caregivers, and teachers across 140 schools. Data includes: cognitive and non-cognitive skills, teaching practices, parental beliefs, time-use etc.	2018 – 21

COVID Phone Survey

Surveyed principals and around 2500 parents of children across 100 secondary and	2020 – 21

140 primary school. Data includes time-use, work attitudes, school practices during school closure.

AWARDS AND ACHIEVEMENTS

UCL Economics Department Studentship	2017 – 22
UCL Yale Scholarship	2021 – 22

SKILLS

Languages: English (native), Hindi (native) and French (Beginner)
Computational: STATA, Python, QGIS.
